COME HOME TO MY REART. Listless and lone are the hours,
Mingled with sunshine and rain,
Nothing of joy or pleasure
Can the cold seasons impart,
As silent I sign for my treasure—
Darling, come home to my heart. The river rolls on to t e ocean,

Whose breakers are beating afar;
Its breast, as if throbs with emption,
Is a glass for each radiant star.
Still the blue skies bend above use,
But what can their beauty impart, When I have so one to love met— Darling, come home to my heart. I am sick of the glare and the glitter, The pomp and the splendor of life; The sweet is so mixed with the bitter The happiness lost in the strife.

The pleasure of fame is abating,
Earth's glories like shadows depart; I am weary of watching ane waiting-Oh! darling, come home to my heart. A PERSIAN DANCING GIRL.

Jasmines taugled in her bair-Ebon hair that loosely hangs Tipped with allver serpents' fangs Swaying in the scented air. Silken sand ils on her feet-Tiny feet that trip in time To the tambourine and rhyme With the linkling music sweet.

On her olive tlated breast, Turquois trinkets, jewels, rings-Lovers' tokens-gifts from kings, Jingle gayly, never rest. Now abe gives a dizzy twirl To the measure of the dance-Quicker than a stolen glance,

Glides the fainty, graceful girl. Just beyond the eager throng Larlly her lover smokes With his rivals, telling jokes Spiced with strains of Persian song.

Idiy waiting-well he knows How they hate him every one, In the garden of the Sun He has plucked the fairest rose.

## FARM, GARDEN AND HOUSE-HOLD.

Bells for Sheep. The cheapest and best insurance against dogs killing sheep are bellsplenty of bells. The sheep dog is a great coward when in pursuit of mischief, and he wants to do it quietlywant no noise, no alarm. Bells bought at wholesale do not cost much. Buy a side of bridle leather at the currier's for collars, and put a bell on every sheep in your flock, if small. The price of one sheep will buy a gross of bells and leather and buckles enough to strap them. Put this gross of bells on a flock of a sep, and they will frighten every dog out of the fields. Flock masters are slow to adopt a simple, cheap remedy like this, but will go to the legislature, hire lobby influence, and spend large sums of money to a little purpose. Members of the legislature are fond of dogs themselves, and do not want them taxed. They own no sheep, and care but little about their

Whole Wheat for Fowls. There is more solid ratriment in whole of the cereals, weight for weight. It is of persons in the United States. an excellent kind of grain for this use though somewhat more expensive than any other sorts; but too much of this feed is detrimental, particularly when fed to Cochins, Brahmas, etc. Fowls are very partial to wheat. It helps the laying capacity of hens, but it should not be used except with discretion as to the quantity allowed them daily. An excess of this raw grain will induce a looseners in the bowels very frequently. It is easy of digestion, and should be furnished in moderation, as a needful and most desirable variety, in conjunction with other dry grains, such as cracked corn, oats, barley, buckwheat, etc. If not more than one third or one fourth of wheat is allowed with the other cereals mentioned, for ordinary purposes in the laying season, hens will do quite as well, and they can thus be kept in better average condition than by a greater allowance. We have proved this by frequent practical experiments in feed-

Training Heifers.

It is an easy matter to train a helfer to stand quietly to be milked, but is easier to train them to jump kick and his whole nature, or it may be allowed run. The way to teach them to stand by neglect to die out, while he degen still is to require them always to do so. If there is naught to hinder a wild heifer from running, and if her fears prompt her to run, she can and will run. If she cannot run in a short time she loses her fear and stands from habit, and habit is one of the most powerful influences in this world for either brute or man. If you ransform a wild helfer into a well-behaved, well-trained cow, you must be patient and exhibit no temper. Never strike her. She must first of all get acquainted with you and learn that you will not harm her. She must learn not to fear you. If in winter, it is best to milk in the stable, make as little fuss and as few alarming motions as possible, handle her very gently. Be careful not to pinch the teats; this is one great source of trouble. A con naturally wishes to be rid of her milk. She and quietly until some careless milker has given a squeeze that hurts, when she kicks and runs. By allowing such a course a few times, the habit will be confirmed. The best way to manage if you have no stable, is to have a well-fenced yard, and to the your heifers to stand for milking in that, or, next best, tie them, using them very quietly. No man or boy is fit to handle animals unless he can control them, and the hills with useful coal and iron; but control himself. Neither is it right to it is not without meaning that He covers chastise the ignorant.

It is, of course, next to impossible to "made everything beautiful in its time" to away with fences altogether. Divis- for a real purpose, which we should on fences of some kind are desirable, interpret in our own lives and for our et thousands of miles of uscless fences own improvement.

exist throughout the country, and which the thoughtful former should seek to remove as circumstances will permit. Having knelt and kissed least a tenth of the first cost. A calculation made some years ago placed the cost of the fences in the United States at \$1,300,000,000. More than forty years ago Nicholas Biddle said the fences in Pennsylvania had cost more than \$190. 000,000. In Ohio they have cost a still elergy, including the high priest. On larger sum, while in New York, only a this last occasion it kissed the cross befew years since, the estimated cost of fore making its exit. In the morning the fences was \$144,600,000. Some time | the vaults were carefully examined and in the future many fences now in use a large number of chests of dynamite will disappe: r, and boundaries will be discovered. Needless to observe, it was marked with fruit and shade trees and at once decided that the "spectre" was neat hedge rows.

New England Farmer Just how long the tomato has been cultivated in th's country for its fruit, is a question that is not easily answered. It is said that a reckless fellow brought the seed from the seed from the Bermuda Islands to some place in Pennsylvania, where he committed some misdemeanor, which caused him to be lodged in York County jail a few weeks. While confined to the jail yard, he planted the seeds he had brought with him, and tended the plants with great care until he was discharged from jail some time before the fruit ripened. The wife of the jailer caused the plants to be protected, as a curiosity, and gave the prisoner reason to believe that the fruit was poisonous. When it rivened, the planter returned, and being permitted to see his plant, called for pepper, salt and vinegar, and commenced eating his fruit with apparent great relish. The seed from the remaining fruit as it ripened, was saved with care, and planted the following year by friends of the jailer. For several years it was cultivated more as an ornamental plant than for its fruit, but its merits gradually became appreciated, as persons learned to relish it prepared in various

A RAIL ROAD OFFICIAL IN-TERVIEWED.

Not everyone so cheerfully communi-cates his knowledge and opinions as re-

cently did E. L. Loweree, Esq., cashier of the Cincinatti Southern Ballway, that splendid outlet to the South from Ohio. Our representative waited upon Mr. Loweree, and in reply to certain Ohio. Our representative waited upon Mr. Loweree, and in reply to certain questions the latter gentleman observed: "I was suffering from a very severe attack of rheumatism in my right foot; it was in a terrible condition; the pain was almost intolerable; our family physician waited on me without success; I sent for another well-known M. D., but oven the twain could do nothing for for me; I could not get down here to he office to attend to my duties; in act bould not put my foot under me at all, and after nine weeks suffering I began to grow desperate. My friend, (whom of course you know, for he is known by everybody.) Mr. Stacey Hill, of the Mount Auburn Inclined Plane Rallygoad Co., called to see me; he spoke shaded garden, is a delight and a surprise to the eye of the artist, while we sician waited on me without success; I all know how plain and unattractive is sent for another well-known M. D., but he expends on his farm. It is a square of the Mount Auburn Inclined Plane Railroad Co., called to see me; he spoke very highly of St. Jacobs Oil, and recommended the remedy to me in glowing terms. I laughed at the idea of using a proprietary medicine, and yet the party recommending it, (Mr. Stacey Hill, remember), being a man of very sound judgment, set me to thinking the matter over. The next day, when the physicians called, I dismissed them, and said to myself that I would let nature take its ceurse. That resolution lasted just a day. On the following morning, I, in a fit of desperation, sent a servant for a bottle of St. Jacobs Oil. applied that wonderful remedy, and it penetrated me so that I thought my foot was about to fall off, but it did not, foot was about to fall off, but it did not, in fact it did just the opposite. The next morning the pain had entirely left my f ot, the swelling was reduced, and really, the appearance was so different sitogether from the day before, that it actually surprised me. I applied more of the St. Jacobs Oil, and that afterneon I walked down here to the ternoon I walked down here to the office and was able to attend to my duties and get around as well as any one. Let me say for St. Jacob's Oil that t

beats railroad time and is always sure to win.—Cincinnati Enquirer. It is said that a local newspaper man dropped into a dentist's office some time ago in search of information, and that when the interview was over the jaw manipulator blandly inquired: "Won't you stop and have a tooth out?" The invitation was declined; but when the dentist visited the journalist the other day, the latter called out as the visitor was nearing the door: "Hold on a minute, Doctor, and we'll get you up an

obituary." No patent required to catch the rheu-matism. A cold and inattention to it and you have it—the rheumatism. We cure ours with St. Jacobs Oil.—Chicago Inter-Ocean.

Something significant-A Chicago boy, who was being educated in Boston was sent home to his parents for writing a compisition entitled "The Potted Puritan or, the Bean Flower's Revenge." It is to the mind of the thoughtful and sagacious statesman that such trifles as these address themselves with prophetic significance, and enable him to foretell the coming of another sectional con-

MOLINE

S.M. Whulo K. Mayor of Molin

OMAHA, Neb., May 24, 1881.

Mesers, B. H. Worner & Co.;

GENTLEMEN: I have frequently used Warner's Safe Kidney and Liver Cure for local affections attendant upon severe rheumatic attacks, and have always derived benefit therefrom: I have also used the Safe Nervine with satisfactory results. I consider these medicines worthy of confidence.

S.2 Kellow Deputy treasurer.

PORTLAND, MICH., Aug. 23. 1881.

Mesers. H. H. Warner & Co.:
GENTLEMEN: A little over a year ago I was taken sick. I did not know what the trouble was, but I continued to grow worse, and my complaint battled the skill of my physicians.

At last my symptomy developed into that terriwas, but I continued to grow worse, and my complaint battled the skill of my physicians. At last my symptoms developed into that terrible complaint, Bright's disease of the kidneys. Last April I went to Ann Arbor, and went before the faculty of the medical college there and after a critical examination they declared nine to be a clear case of Bright's disease, and I came home feeling that there was no help for me. I was advised by a friend to try Warner's Safe Kidney and Liver Cure, but I s-offed at the idea of Ithat benefiting me, after having been treated by some of the best medical skill in the country who had pronounced my case incurable. I at last purchased a bottle of the remedy and commenced using it according to the directions. I cannot be too thankful that I made use of your medicine; and must heartly recommend it to all sufferers of that fearfal disease, as I can truly say that I owe my present existence and happy restoration to the use of Warner's Safe Kidney and Liver Cure. I wish to say to every one suffering from any manner of kidney or liver trouble, use that remedy and recover.

& S. Mathews.

GENESEO. III., July 13, 1881.

Meurs. H. H. Warner & Co.:

GENTLEMEN: I know that here at home I am laughed at for my enthusiasm in praising your medicine, but we owe so much to your Safe Kidney and Liver Cure that we hardly know how to express our thanks. My husband. Mr. Samuel Chamberlain, first used it, after suffering intensely from Kidney disease. At the time he commenced using it, he was frequently confined to the house, and was considered in critical hea'th. Hie has used all the remedies he could hear of, or that our home doctors could preseribe, but without any benefit, until he commenced using this. Then his improvement was remarkable, and he says he never knew of anything that gave him the temporary relief that this has permanently given

Mrs J. Chamberlain

MICHIGAN CITY, Ind., April 11, 1881. DEAR SIR: Having been troubled with the liver and kidneys for four or five years and tried a great many remedles without relief, at last I tried your Safe Kidney and Liver Cure and I feel like a new man. I am traveling with Arington's Minstrels. There are twenty four in number who are using your remedy. I also recommended it to my sister's family with the same success.

CHICAGO, May 30, 1881. Mesars. H. H. Warner & Co.:

My DEAR SHR: For several years I have been a sufferer, and until your Safe Kidney and Liver Cure was suggested. I have not known what it is to be free from pain. My family physic an attributed all my sufferings to a diseased condition of my kidneys, and after he had failed to give me relief I tried your remedy, and am a well man to-lay.

Well man to-day.

CASSarris

"Oare Polyse"

Testimony of such high order and so out-spoken in its nature cannot be questioned, and places the remedy to which it refers on the high-est plane of value. For all diseases of the kid-neys, liver or urinary organs nothing ever known in the history of the world can for a moment compare with it.

No man who has never written a book can comprehend the awful joy which fills the soul of the author as he discovers the offspring of his brain sandwiched in among a number of other discarded volumes, and marked: "Your choice for ten cents."

OUR PROGRESS. As stages are quickly abandoned with the completion of railroads, so the huge, drastic, cathartic pills, composed of crude and bulky medicines, are quickly abandoned with the introduction of Dr. Pierce's "Pleasant Purgative Pellets," which are sugar-coated, and little larger than mustard seeds, but composed of highly concentrated vegetable extracts. By druggists.

ALWAYS KEEP COOL

Remedy for this as well as other painful all ments.

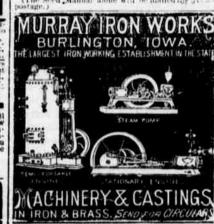

WE'LL NAIL ITS COLORS TO THE MASS

"Hello, Denny! what is the frontise?" the,
Tm all broke up," was the response to the taquiry of an old shipmate of William 6. Deaniston, one of Farragut's war worn veterans, well
known in the southern section of this city, who
came limping into the American office yesterlay,
"I thought I would go under the hatch y this
time," could not be missen. "I never suffered
so much in my life. I had the rheumable goat
so had that I could not get off the bed or put my
feet to the floor, and would have been there yet
if a friend had not recommended Sr. Jacons Oh.
to me. I healtack some time before getting a
bottle, thinking it was another one of those adverised nostrums, but was finally induced to give it
a trial, and a backy day it was for me. Why,
bless my stars! after bathing the limb thoroughly
with the Oil I felt relief, and my faith was planted
to Sr. Jacons and his Oil after that. I freely say
that if it had not been for Sr. Jacons Oil. I should,
in all probability, be still housed. My foot pairs
me but little, and the swelling has entirely passed
nway. It beats anything of the kind I have ever
heard of, and any person who doubts it send them.
